[Show/edit current subscribers](#)[Subscribe to this forum](#)**The WK 2/17-2/24 Discussion Journal for week**

We are just finishing our first "essay," and I would like for you to write about your experience "getting launched" with this last writing experience. What did you do to get ready to write? How did you come up with your ideas? Glance at Chpt. 2 in Real Writing again and talk about if you used any of these invention techniques. If you did the invention exercise, how did it help or not help you? Talk also about what the shift was like for you as you actually started to write the paper (i.e. as you moved from thinking up your ideas and planning (pre-writing) to doing the draft. (Be sure your response is a minimum of 150 words.)

NOTE: Post a new message within the WK 2/17-2/24 Discussion Journal forum to do your initial response. Then, you reply to four of your peers' responses (a fifth will count as extra-credit).
